

steltman mid century accent chair

SHEN20-04

The Steltman chair is a mid-century modern chair designed by Gerrit Rietveld in 1963 for Steltman jewelers in the Hague (Netherlands).

Originally designed as two mirrored chairs which represent two separate, opposite forms that together form a unity. The chair is asymmetrical, made entirely of lines and planes, providing unique viewing angles. The Steltman chair makes for a unique accent chair in entry or living areas.
